Hi K,

I will schedule this alley to be cleaned but this resident needs to report this location to MyLA311 or call 311 in the future. There is no recent record of her calling and requesting service in this alley. Also, residents are responsible to clean the alley to the middle of the alley behind their property.

Photos would be a great help in the future. Thanks

See attached the LACC form and report from MYLA311

Good Morning Kimani,

You helped me in September of last year with expediting clean up of the alley behind my home (2919 S Genesee Avenue 90016). Street services and the department of sanitation were not responsive to my requests.

Once again the alley directly behind my home and neighbor's homes are overgrown with brush and debris. Are you able to arrange for another clean up?

Please advise. Thanking you in advance!

Rebecca Harris

**Subject:** Alley Clean Up

To Whom It May Concern:

My name is Rebecca Harris, owner of 2919 S Genesee Ave Los Angeles 90016.

I have called in to street services and the department of sanitation regarding clean up of the alley behind my property since September 2018. After being pushed back and forth between the two departments, street services did wind up servicing the alleyway in 2018, which had lots of overgrown brush as well as broken glass, etc.

One year later, the issue is reoccurring, and I'm experiencing the same back and forth push back from both departments. Street services advised me that they no longer handle alley requests due to a budgeting issue, and has referred me to the department of sanitation who supposedly takes care of that. Department of sanitation is insisting that its street services. The alley remains overgrown with vegetation (tall enough to compete with the 8 foot wall behind my home), trash, and broken glass, while both departments are issuing tickets for inspections yet no one is performing the work.

I am looking for someone that can help clarify this situation and facilitate in making sure that the alley is cleaned up. Unfortunately I fear there are big safety concerns in its current state.

I thank you for your time.

Best,

Rebecca Harris
